

Architectural Design Phase Defects Checklist ¹

| Nr. | Check Point / Defect Statement | Check Mark (✓) the Appropriate Column | |
|-----|--|---------------------------------------|-----|
| | | Yes | N/A |
| A01 | Is the overall organization of the program clear, including good architectural overview? | | ✓ |
| A02 | Is the subsystem and package partitioning and layering logically consistent? | | ✓ |
| A03 | Does the architecture account for all of the requirements? | ✓ | |
| A04 | Are the classes in a subsystem supporting the services identified for the subsystem? | ✓ | |
| A05 | Is there a coherent error handling strategy provided? | | ✓ |
| A06 | Have classic design patterns been considered where they might be incorporated into the architecture? | ✓ | |
| A07 | Is the name and description of each class clearly reflecting the played role ? | | ✓ |
| A08 | Is the description of each class accurately capturing the responsibilities of the class? | | ✓ |
| A09 | Are the role names of aggregations and associations accurately describing the relationship between the related classes? | ✓ | |
| A10 | Are the key entity classes and their relationships are consistent with the business model (if it exists), domain model (if it exists), requirements? | ✓ | |
